EDUCATION

Vellore Institute of Technology , Chennai, India Computer Science - AIML — CGPA: 9.0	2023 – 2027
Nine Education Academy , Hyderabad Telangana State Board of Intermediate Education — Aggregate: 93.5%	2021 – 2023
Sri Sai Public School , Hyderabad ICSE (Class X) — CGPA: 9.2	2020 – 2021

TECHNICAL SKILLS

Frontend Development:

TypeScript — JavaScript — React — Next.js — Tailwind CSS — Shadcn UI

Backend & APIs:

Node.js — Express — Flask — FastAPI — RESTful APIs

UI/UX & Styling:

CSS3 — Tailwind CSS — Responsive Design — Figma

Tools & Platforms:

Git — GitHub — Vercel — AWS EC2 — MongoDB — PostgreSQL

Additional:

Python — LangChain — OpenAI APIs (AI/ML exposure)

FREELANCE WORK

The Dusky Muse	<i>TypeScript — Next.js — Framer Motion</i>	Freelance Project
Modern frontend development with responsive design, smooth animations, and performance optimization.		
	Code	— Live Website

PROJECTS

Solana Voice Assistant	<i>Next.js — TypeScript — Tailwind CSS — Solana</i>
<i>Web3.js</i> [2025] Developed a voice-controlled Solana wallet and token swap application using Jupiter Swap API. Implemented wallet generation, balance checking, and token swapping functionality through voice commands with Web Speech API. Designed an intuitive UI with animated voice feedback, real-time transaction status, and dark/light mode support. Integrated with Solana blockchain for secure wallet operations and Jupiter API for token swaps with route optimization.	
	Code — Live
E-Commerce Frontend	<i>Next.js — TypeScript — Tailwind CSS — ShadCN UI</i> [2025] Developed a responsive e-commerce frontend with modern UI components and interactive shopping features. Implemented product listings, category filtering, cart functionality, and checkout flows using Next.js App Router. Designed a component library with ShadCN UI and custom Tailwind configurations for consistent styling. Features include mobile-responsive layouts, animated transitions, and dark mode support.
	Code — No live website

HACKATHON CONTRIBUTIONS

Bingo Social	<i>TypeScript — Next.js — MongoDB</i>	DevsHouse Hackathon 2025
A social media web application with user authentication, posts with likes/comments, and real-time notifications.		
	Code	— Live Demo
FetchHive	<i>TypeScript — Next.js — Redux</i>	HackNight
A job board application allowing users to browse, filter and apply for job listings with modern UI.		

WORK EXPERIENCE

Newton School Coding Club — *Web Developer* Sept 2024 – Present
Developed web applications using React/Next.js

Google Developer Club (GDG), VIT Chennai — *Open Source Developer* Oct 2024 – Present
Contributed to multiple projects with merged PRs.

POSITIONS OF RESPONSIBILITY

Zero Bugs Club, Chennai — *Design Lead (June 2024 - Sept 2024), Content Writer, Designer (Feb 2023 - May 2024)*

Led team of designers for tech events. Created design assets for club activities and events.
